

## REVIEW OF THE MARKETS; AND REAL ESTATE BUSINESS.

REVIEW OF MARKETS  
FINANCIAL AND COMMERCIALStocks, Money, Exchange, Bonds, Grain,  
Cotton, Provisions, Etc.

New York, April 28.—Wall street was inclined to read the signs of the day as meaning "a little set-back in our prosperity." The market had an undertone of depression which did not reach to positive weakness. Awaiting attitude would be the proper description. The reports of the commercial agencies for the week, which made their appearance on Saturday morning, caused a feeling that industrial and trade activity and business prosperity were not being fully maintained for the time being. There are suggestions in various fields that ruling prices are serving to diminish consumption to an extent that may necessitate curtailment of production and lowering of prices. The report of March of the Lehigh Valley finished the exhibit of unfavorable results in the anthracite field. The bank statement, while a strong one, according to the rules of interpretation, created an unfavorable impression. Preliminary reports of the large inflow of currency from the interior were fully confirmed by the statement. This movement, in view of the case of money at this center, gives force to the suggestion that there is a falling off in trade activity. This view, at all events, was the keynote of the morning's tendency of prices to which there were not sufficient exceptions to affect the general tone. The steel industrialists were special sufferers, on reports of intended competition by the Carnegie Company in the field of the steel and wire company's products and the shutting down "for repairs" of a plant of the National Steel Company.

The week's increase of loans is undoubtedly largely due to borrowing on sterling collateral. Owing to the cheapness of money here and relative dearth abroad, this operation is more profitable than drawing the exchange. This operation, as well as the export of gold, represents the lending of money to foreign borrowers, as the country's foreign trade continues to accumulate credits in our favor. Reports of bank clearings do not warrant the assumption that the return flow of currency is due to diminished trade activity. New York and Boston are the only important centers in the country to show a decrease in clearings for the week compared with last year. The five other leading reserve cities, as well as the total for all other cities, shows an increase ranging from 9 to 28 per cent. The true explanation must be that the extension of bank note circulation and the disbursement of cash by the U. S. Treasury has overrun the needs of the circulation and is forcing funds back into the idle reserves of banks. Further export of gold to the summer season, unless its operation is checked or contracted, is considered certain.

Activity in bond has been mostly confined to special cases where individual causes affected prices. The market generally was quiet. U. S. refunding 2's when issued, the 3's old 4's and 5's declined 1/4, and the new 4's advanced 1/4 in the bid price.

**Marine Notes.**  
The raising of the steamship City of Jacksonville, noted in the Virginian-Pilot, will attract great attention in marine circles, as in this job compressed air was used for the first time in raising a sunken vessel. The Atlantic Wrecking Company, of New Jersey, has been at work for seven months on the steamship, and the method used is the invention of Morrell Sardon, a young civil engineer of Philadelphia. It is believed that the new process will revolutionize the method of raising sunken ships. The Jacksonville is believed to be practically uninjured by her long burial in the sand.

Yesterday's Baltimore Sun says: "Through appreciation of their services as members of the Diamond Shoal Lightship, off Hatteras, President Michael Jenkins, of the Merchants' and Miners' Line, has ordered Captain Billups, of the steamer Alleghany, to deliver Captain J. I. Bowling, Chief Engineer T. B. Fitzpatrick and one of the crew, who have been in Baltimore on leave for the past month, to their ship. The Alleghany will sail this afternoon for the lightship."

The business of the Norfolk and West India Fruit Company is so encouraging that it is understood another steamer will soon be put on the line.

Representative Mudd, of Maryland, has introduced a bill for a dry dock at Drum Point harbor, Chesapeake Bay, that will cost \$1,200,000.  
The Old Dominion steamer Accomac is in port undergoing an overhauling.  
The United States cruiser Buffalo passed the Cape yesterday on a foreign cruise. She had aboard a complement of apprentice boys from the Brooklyn, League Island and Norfolk navy yards. She will make her first stop in the Azores.
